## Employment History

Senior Software development engineer ,MVM and Chery ,Tehran

Mar 2017 – Present

Chery is Chinese international automobile factory that work with MVM factory in Iran.

Programming and designing and control database are my duty in this factory so I made some system for our company for example : after sale system with asp.net and build Telegram robot with C# for managers to report and control easily the factory and I made an application for customers for android an iOS and also manage a useful warehouse for company with power BI.

Software development expert ,Payanik ,Tehran

Sep 2015 – Mar 2017

Payanik is a human resource company that I made some web application for that like payanik.com or payajob.com or asnadshop.com and a windows application with C# for managing humans.

Software programmer ,Mammut, Tehran

Oct 2013 – Sep 2015

Mammut company works with Scania and build trucks and also create tools for construction so I help them in programming for IT section.
